Continuing Education (CE) Information

GOAL: To educate oncology nurses and social workers with an overview of Palliative Care, the changing landscape of oncology innovation, and help identify gaps in services for patients and their families in Western Massachusetts.

TARGET AUDIENCE: Oncology nurses and social workers, at all levels of practice, caring for cancer patients.

LEARNING OBJECTIVES: At the conclusion of this program, participants will be able to:

- Demonstrate an understanding the wide scope of Palliative Care services and the importance of embracing these services before someone is given a terminal diagnosis.
- Discuss what quality of life means to your patients and how support teams can reach those goals.
- Identify gaps in programs and services for patients and their caregivers in Western MA
- Discuss resources available including those from LLS for patients, caregivers and healthcare providers
- Identify the importance of self-care as a healthcare professional and how to incorporate it into your daily life.

Approval for nurses has been obtained by the National Office of The Leukemia & Lymphoma Society under Provider Number CEP 5832 to award 4.0 continuing education contact hours through the California Board of Registered Nursing.

Due to recent updates in ASWB requirements, additional approval is needed for social work credit for this program. We have submitted an application to ASWB ACE for consideration of 4 CE credits for this program. Please be aware that approval is not guaranteed, and in the absence of approval we will provide a certificate of attendance. As information becomes available we will keep you updated.

Upon completion of this program and submission of the activity evaluation, a certificate of completion will be emailed to you within 30 days
